JUNE 2008 — NEW BARIATRIC SEATING FROM FIXTURES

Fixtures Furniture has introduced two bariatric versions of their best selling side chairs, Patience and Allure. Both side chairs provide generous seats, ample arm support and a reinforced rigid frame construction that's rated to hold up to 500 pounds.

Designed to be used separately, or together with the standard sized version, both chairs provide comfortable, stylish and durable solutions to waiting room needs. Patience, with its 18" seat height and forward sloping arms is particularly well suited for waiting area needs in health care environments. Allure can be used equally in health care, corporate, dining or meeting areas.

Allure and Patience bariatric are available in the same range of frame and trim finishes and upholstery options as their smaller versions.

Founded in 1947 in Kansas City, Fixtures Furniture offers a simple line of tables and chairs with uncomplicated looks and the versatility to flex in multiple applications. Fixtures Furniture offers colors and materials that fit any environment, neutral or bright, with a unique set of additive elements.
