**MAY 2007 – FIXTURES FURNITURE EXPANDS MULTI-PURPOSE
TABLE LINE**

Fixtures Furniture has introduced a new brochure to highlight its recently expanded offering of multi-purpose tables. Called “pick-a-top, pick-a-base”, the brochure walks specifiers through the selection of a perfect table in a few simple steps. Pick a top shape and size in laminate or wood veneer; add an edge from a choice of vinyl, urethane or wood profiles; pick from among 16 base styles; then, select finishes.

Fixtures worked closely with noted Chicago design firm, Perkins+Will/Eva Maddox Branded Environments™ over the past few years to develop a palette of coordinated laminates, veneers, epoxy paints and trim colors. The result is a handsome offering that adds fresh, clean finishes suitable for many environments.

A handy table selector “turntable” inserted into the back of the brochure allows users to match up any combination of top size and base, and contains all the available finishes in a “turn of the wheel.”

Simple, affordable and durable, Fixtures multi-purpose tables can be used in everyday applications, from dining and learning to meeting and greeting.

Fixtures Furniture offers a simple line of tables and chairs with uncomplicated looks and the versatility to flex in multiple applications. Fixtures Furniture offers colors and materials that fit any environment, neutral or bright, with a unique set of additive elements.
