**MAY 2006—FEEL THE PULSE WITH FIXTURES NEWEST ADDITION**

Fixtures Furniture has added the comfort and versatility of PULSE to its successful line of seating and tables. Designed by Peter Haas, PULSE is the perfect choice for training and study applications across a wide range of user sectors, from higher education, to healthcare, institutional and corporate users. PULSE keeps them in their seats with its ergonomic design. The secret lies in the combination of a cleverly engineered articulating one-piece welded frame that moves with weight leverage, and a separate lumbar support panel that flexes with the user. Both movements work in combination or independently, and require no levers, knobs or clumsy controls. PULSE facilitates fidget factor.

As with all Fixtures Furniture products, PULSE has a model to meet many needs. PULSE comes to you in a choice of 15 exciting frame finishes, and 13 electrifying thermoplastic colors - a designer's palette. Options include padded upholstered seat and lumbar, bookrack and glides. Stacking capabilities make PULSE an accommodating choice.

List prices start at \$187.

Fixtures Furniture manufactures high quality, innovative chairs and tables for commercial use. We think It's Pretty Tough Stuff™ - our designer-friendly products come in multiple color options; every product is built to last; and because there are a lot of multiple-user furniture products to choose from...we have the stuff.

With an industry reputation for innovation and design, Fixtures Furniture has been in the business of supplying first-class seating to corporate, education and healthcare facilities for more than 50 years.
